World Federation of Chinese Medicine Societies

The 6th International Congress of Chinese Medicine Psychology

&

The 4th General Election Meeting

(2019 • Beijing China)

On June 23th, 2006 , the World Federation of Chinese Medicine Association of Chinese medicine psychology professional committee was formally established. In the past 12 years, Chinese medicine psychology developed rapidly and achieved fruitful results. On Sept. 21st, 2017, the minister of SATCM(State Administration of Traditional Chinese Medicine of People's Republic of China) Guoqiang Wang published in the People's Daily, "a comprehensive well-off health and mental health", a paper said that "Play the role of traditional Chinese culture and traditional Chinese medicine to promote the Chinese traditional culture and psychological theory and technology integration development, to provide the public in line with China National conditions, cultural characteristics and values of mental health technology. Give full play to the role of traditional Chinese medicine in mental health services, strengthen the relevant departments of Chinese medicine hospital construction and personnel training to promote the development of Chinese medicine psychology. " In order to further promote the development of Chinese medicine psychology and the research level, the study decided, as in the past five times the International Symposium on Chinese medicine psychology on the basis of the promotion of Chinese medicine culture, dissemination of Chinese medicine psychological concept, integration of Western psychological development results, to promote the localization of psychology, on June 18th, 2018 in Beijing in the grand international psychology of Chinese medicine, sleep medicine conference and the first national spirit of the Forum of Chinese Psychology, in order to fully demonstrate the Chinese medicine psychology
